\*fully equipped with partition and spare wheel

The Supreme 2000 is an extremely successful contemporary front and rear unload horse trailer. It has very generous internal dimensions and is designed to carry 2 horses in the 16HH category, weighing not more than 1080kg in total, in comfort and style. Rear top doors that co-ordinate with the roof panels, load stands and a lockable groom's door are all standard features on this model.
