

SUPREME TREBLE

	Internal Width	Internal Length	Headroom	Gross Capacity	Unladen Weight
Supreme Treble	5'10 ³ / ₄ " (1797mm)	12'6" (3810mm)	7'6" (2286mm)	2600kg	1230kg

The 'Supreme Treble' is the ultimate travel for two horses and a pony up to 15HH. The two horses travel in the conventional way and the pony is loaded using the front ramp and faces backwards. It has two front partition wings and these are very simply closed and the front breast bar arrangement moved forward to carry two horses only. Unlike the old design, this brand new partition arrangement allows you to release one horse at a time as the breast bar across the front is now split. You could, of course, use either the Supreme Treble or Ultra to transport two smaller horses and use the extra space for storage, a trap perhaps or simply for tack.

We also manufacture a range of livestock and commercial trailers - please ask for a brochure.

As part of our policy to continually update the product range, we reserve the right to modify any specifications as may prove necessary. We will be pleased to answer any queries on this matter and confirm current specifications. All dimensions and weights are approximate and are intended for guidance only.
